COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Applicants gratefully note the allowance of Claims 1-3 and 5-43 in the present application. While Applicants believe that the claims are allowable, Applicants do not necessarily agree that patentability resides in the specifically identified feature or combination of features, or that each feature or combination of features specifically identified is required for patentability, or any inference that equivalents of any of the recited claim features are outside the scope of the claims. Moreover, to the extent the Reasons For Allowance do not separately address the additional subject matter of the dependent Claims, Applicants do not

acquiesce to any inference that these claims do not present patentable subject independent of the patentability of the independent Claims.

Respectfully submitted,

Dated: April 25, 2008
